Area - 93 acres

Maximum depth - 19 feet

Temperatures:

Surface - 74°F

18 feet - 52°F

Principal fisheries: White perch, chain pickerel

Ellis Pond is a very shallow pond located within the Passagassawaukeag River Drainage. Historically, the pond has provided an excellent fishery for white perch, both in numbers and size quality Chain pickerel are also targeted. The pond is open for angling under general law fishing regulations both summer and winter.

Management of Ellis Pond should be for existing species; no stocking is recommended at this time.

Surveyed - August, 1956

Revised - 1998
